

Name: Vignesh S

Regno: 192325002

Experiment: 9. Implement the image scaling techniques to resize the images to both bigger and small sizes

Code:

```
import cv2

i = cv2.imread("image.jpg")

s = cv2.resize(i, (200, 200))

b = cv2.resize(i, (800, 800))

cv2.imshow("Original Image", i)

cv2.imshow("Smaller Image", s)

cv2.imshow("Bigger Image", b)

cv2.waitKey(0)

cv2.destroyAllWindows()
```

Input and Output:
